How to prepare your brush for pickup

Please place tree waste at the roadside in front of your residence in an orderly pile with the cut ends facing the street. Brush piles must be kept off the road pavement/gutter. Placing brush piles on the road is a safety issue for drivers and pedestrians, alike. It also can create drainage issues for your neighborhood.

A note about leaf collection

Loose leaf collection is a separate service and is provided between October and May. In the spring all leaves must be brought to the curb before April 15th. No collection will be provided after May 1st. Leaf piles must be separate from brush piles and leaf collection will not follow the brush collection schedule.
